I have always been told that if you love what you do then it’s really not work. With Briggs Equipment I have been able to move up in the ranks. I started out as a trainer and dispatcher, worked in the shop, worked in the field and I am currently Service Manager for the Dallas Branch and love every minute of it. The training I have received has enabled me to excel to new levels. I work with highly motivated people and am proud to call them my family.
